Further Reading Suggestions

Updated December 2020

Note: There will be references to other books, journals, on-line and other resources in every Unit of the course. The following books are not 'essential', but it is a good idea to look at a few and choose **two or three** that catch your eye and suit your personal learning style. They are divided into categories, but there is considerable crossover – some books cover a bit of history, medicinal use and home remedies, for example. Reading online reviews may help you get a feel for the books contents and approach to the subject. The **bold** title may be of particular interest.

- **Aeon is a publisher that produce many Herbal Medicine related books.** *Their 'Heartwood reading list' can be accessed through this link - <https://health.aeonbooks.co.uk/readlist/heartwood/117> Students can access 20% off all books on this list, by entering code 'HEARTWOOD' at checkout. ===== Home Herbals =====*
